

Agrobot — what the robot needs to do

Your goals · FAST function overview · 1 October 2026

- 1. Identify fruits and vegetables.
- 2. Check ripeness.
- 3. Choose the best picking paths.
- 4. Follow these paths.
- 5. Put the harvest in a bin.

Solid lines show function logic. Dashed lines mark the scope.
AND: The parent requires all its child functions together.
